6-8 weeks manufacturing time is required.			

Each audio cabinet is fully handcrafted from start to finish from hardwoods grown in the USA, then cut, milled, dried, and worked in the USA. Natural wood has its own beautiful look, and each piece is unique.

Above: Ash stock to be used for project

Above: example of Red Oak from Zacharias Milling

Above: Black Walnut stock to be used for project

Above: Example of clear stain on Black Walnut, much darker than Ash or Red Oak.

Thank you for supporting Audio Acoustic Engineering!
